Dear Mr. Rohlf,
 Thank you for the stunning presentation. I learned so, so many new things. May I tell you them? I learned that when you look at the sun you are seeing it as it was 8 minutes ago. The paintings were beautiful! Mr. Rohlf, wouldn't the people who make the quarks know what is inside of them?
 Thank you,
 Enir

Dear Jim,

Thank you for the presentation. My favorite was the fire in the tube. I really like the Milky Way pictures. I thought the pictures of Margaret was funny. And when I saw the pictures of the stars exploded was cool.

Sincerely,
Nicole

Dear Mr. Rohls
Thank you for the fact filling

presention! It was interesting!
I learned that we are part Bigbang!
Have you ever bin to outer
space?

From,
Alexandra
